The Amputee Coalition is launching the Amplify campaign to make sure the voice of the limb loss and limb difference community is heard. Throughout the campaign, we will share stories of how people with limb loss and limb difference amplify their lives and spotlight the issues involved in getting prosthetic care covered.

Access to quality prosthetic care is essential to life. Speak up for yourself. Speak out for others. No is not an answer.

Please join the campaign. If you have patients willing to share their stories, please let us know at amplify@amputee-coalition.org.

During our 2017 Hill Day, we will educate lawmakers about the needs of the community. If you or your patients are interested in joining us or learning more about how you can influence policy, please email amplify@amputee-coalition.org or call 888.267.5669. Together we can turn up the volume!

The Amputee Coalition does not sell your information and respects your privacy. For full details about how we take care of your data, call us or visit amputee-coalition.org.
